EDUCATION

10.2018 - 06.2021

University of Cambridge

Computer Science

09.2015 - 05.2018

XIV Stanislaw Staszic High School in Warsaw

a special class with academic mathematics

EXPERIENCE

06.2021 - 09.2021

Facebook

Enterprise Engineer Intern - Logistics & Operations Team

- working on React Native front-end (creating, modifying, connecting to back-end)
- querying internal back-end databases using Hack, a dialect of PHP
- exposing back-end data via GraphQL API

08.2020 - 10.2020

Amazon

Software Development Engineer Intern - Alexa Speech Team

- worked on decoupling lexicon building for different languages (a lot of problem solving around internal Amazon software and my Linux Cloud Desktop)
- created and published online a package (using mainly python, bash and a dialect of scheme) responsible for grapheme to phoneme training

07.2020 - 08.2020

Barclays

Technology Developer Intern - Public Cloud Engineering Team

- worked on detecting duplication between AWS Cloud Formation templates
- pre-processed the templates and created a GUI (using the tkinter library in python) for experts to compare and see differences between different template fragments

06.2019 - 10.2019

UtterBerry

Software Engineering Intern

- creating web applications in JavaScript
- analyzing 3D transformations and their implementations in Three.js
- creating mobile applications in React Native
- creating backend using Express.js and MongoDB

07.2017 - 08.2017

Connectis_

Intern - Mobile Developer

- creating software in Xamarin technology for the Android platform (api 19+).

03.2020 - present

Computer Science Tutoring

Educational Consultant, Computer Science Tutor

- teaching theoretical and practical machine learning
- preparing a student for the admission exam and the interviews for Computer Science at the University of Cambridge
- teaching computer architecture and low-level C programming

CERTIFICATES

- **Machine Learning** by Coursera (Credential ID: QJYEUTPDQVS2)

SKILLS

Java
C++
C
Python
JavaScript
Algorithms and data structures
Advanced problem solving
Object-Oriented Programming
Functional programming
React Native
Xamarin
Microsoft Office 365
C#
Android
Git
Console
Visual Studio 2017
Bitbucket (code review/pull requests)
HTML/CSS
XML/XAML
Trello
SQL
Mongo DB
Unity
Microsoft HoloLens Development
Machine Learning and Data Processing in Python (numpy, pandas, scikit-learn, matplotlib, keras)
AWS
Vim
Bash
Linux shell
Hack, a dialect of PHP
GraphQL

SPEECHES

Deep Learning in Medical Imaging - a Practical Introduction - 'AI in radiological diagnostics' conference 2021
<https://ai-radiology.eu/deep-learning-in-medical-imaging-a-practical-introduction/>

HOBBIES

sports

music

psychology

new
technologies

languages

ACCOMPLISHMENTS

- **the Green IoT award and the MongoDB award during the 'Hack Cambridge 2020' hackathon**
- **Best Hack for Social Good award and startmeup sponsor prize during the 'Oxford Hack 2019' Hackathon**
- **the Winner of the trading challenge organized by the Cambridge University Algorithmic Trading Society and the IMC trading company**
- **2nd place in the spring edition of the Wawcode 2019 Hackathon in Warsaw**
- **5th place in the Luno Challenge during the Spark hackathon**
- **People's choice award in the Cambridge-Bradfield blockchain Hackathon (CBHACK)**
- **the Finalist of the 67th and the 69th editions of Polish Mathematical Olympiad**
- **the Laureate of the 17th, the 18th and the 19th editions of the Mathematical Competition for High School Students organised by the Warsaw University of Technology**
- **the Laureate of the Jagiellonian Mathematical Tournament 2017/2018**
- **the Winner of the Mathematical League of the Warsaw University of Technology**
- **the Laureate of the 11th polish edition of the International Challenge on Informatics and Computational Thinking "Bebras"**
- **the recipient of the Mazovian scholarship for talented students awarded for a project concerned with creating an interactive website popularizing inversion - one of the most important mathematical transformations**
- **the Laureate of the 10th edition of the Mathematical Olympiad for Lower Secondary School Students**
- **the scholar of the Polish National Fund for Gifted Children**
- **2nd place in the international, team mathematical competition NABOJ 2015/2016**
- **the Finalist of the Physics 2014/2015 and the Philosophy 2013/2014 regional competitions**
- **100% in Computer Science, Mathematics and English Matura (official Polish graduation exams)**
